#### Documentation and resources from meetings/webinars held

##### Documentation et ressources relatives aux réunions/webinaires tenues

- Technical meeting on environmental enteric dysfunction, the microbiome and undernutrition. Meeting held 28 – 30 October 2015, IAEA Headquarters, Vienna, Austria [meeting] [Link](#)

#### Specific resources on acute malnutrition

##### Ressources spécifiques sur la malnutrition aiguë

- Evaluation of the acceptability of improved supplementary foods for the treatment of moderate acute malnutrition in Burkina Faso using a mixed method approach. *Appetite* [Link](#)
- Acceptability of locally produced ready-to-use therapeutic foods in Ethiopia, Ghana, Pakistan and India [free abstract, full access in low income countries]. *Maternal & Child Nutrition* [Link](#)
- Comparison of the effectiveness of a milk-free soy-maize-sorghum-based ready-to-use therapeutic food to standard ready-to-use therapeutic food with 25% milk in nutrition management of severely acutely malnourished Zambian children: an equivalence non-blinded cluster randomised controlled child. *Maternal & Child Nutrition* [Link](#)
- Impact of lipid-based nutrient supplements and corn-soy blend on energy and nutrient intake among moderately underweight 8-18-month-old children participating in a clinical trial. *Maternal & Child Nutrition* [Link](#)
- Impact of lipid-based nutrient supplement (LNS) on children's diet adequacy in Western Uganda. *Maternal & Child Nutrition* [Link](#)
- Provision of lipid-based nutrient supplements to Honduran children increases their dietary macro- and micronutrient intake without displacing other foods. *Maternal & Child Nutrition* [Link](#)
- Special nutritious solutions to enhance complementary feeding. *Maternal and Child Nutrition* [Link](#)
- Short children with a low midupper arm circumference respond to food supplementation: an observational study from Burkina Faso [free abstract]. *The American Journal of Clinical Nutrition* [Link](#)
- Outcomes of severely malnourished children aged 6-59 months on outpatient management program in Kitui county hospital. *Open Journal of Pediatrics* [Link](#)
- Changes in plasma phosphate during in-patient treatment of children with severe acute malnutrition: an observational study in Uganda. *The American Journal of Clinical Nutrition* [Link](#)

#### Other resources relevant to acute malnutrition

##### D'autres ressources applicables à la malnutrition aiguë

- Gut Microbiota in Children Hospitalized with Oedematous and Non-Oedematous Severe Acute Malnutrition in Uganda. *PLOS One* [Link](#)
- Effect of ready-to-use foods for preventing child undernutrition in Niger: analysis of a prospective intervention study over 15 months of follow-up [free abstract, full access in low income countries]. *Maternal & Child Nutrition* [Link](#)
- Maternal depression and malnutrition in children in southwest Uganda: a case control study. *BMC Public Health* [Link](#)

**Country-specific resources related to acute malnutrition**  
**Ressources spécifiques aux pays liées à la sous-nutrition**

- Predictors of anthropometric failure among under five slum children of Jammu, **India**. *International Journal of Community Medicine and Public Health* [Link](#)
- Risk factors for severe malnutrition in under five children admitted to nutritional rehabilitation centre: a case-control study from Central **India**. *International Journal of Community Medicine and Public Health* [Link](#)
- Rapid survey of wasting and stunting in children: what's new, what's old, and what's the buzz? **[free abstract]**. *Indian Pediatrics* [Link](#)
- Repositioning nutrition education: challenge for public health **[Pakistan]** **[free abstract]**. *J Dow Uni Health Sci.* [Link](#)
- Space–time mapping of wasting among children under the age of five years in **Somalia** from 2007 to 2010. *Spatial and Spatio-temporal Epidemiology* [Link](#)
- Elevated prevalence of malnutrition and malaria among school-aged children and adolescents in war-ravaged **South Sudan** **[free abstract]**. *Pathogens and Global Health* [Link](#)
