IAEA Patient Journey Audit Tool, Patient Satisfaction Survey and Referrer Satisfaction Survey contributors

The IAEA wishes to thank the contributors to the drafting and review of these surveys for contributing their knowledge, time and effort. The IAEA officers responsible for these surveys were Anita Brink, Arthur Andrade and Diana Paez of the Division of Human Health.

Arends, Bertjan          Catharina Ziekenhuis, Netherlands
Brink, Anita             International Atomic Energy Agency
Colaco Pires de Andrade, Arthur International Atomic Energy Agency
Arevalo Pardo, Manuela   International Atomic Energy Agency
Dondi, Maurizio          International Atomic Energy Agency
Jaimovich, Rodrigo       Pontificia Universidad Católica de Chile, Chile
Jawa, Zabah M.           SQUH, Oman
Marengo, Mario           University of Bologna, and Medical Physics Department, Veneto Institute of Oncology IOV – IRCCS, Italy
Paez, Diana              International Atomic Energy Agency
Pathmaraj, Kunthi        Austin Health, Australia
Pascual, Thomas          Department of Science and Technology, Philippines
Rubow, Sietske           Stellenbosch University, South Africa
Torres, Leonel           CENTIS, Cuba
Vinjamuri, Sobhan        Liverpool University Hospitals, United Kingdom
Elias, Elias Woodrow     Singapore General Hospital, Singapore

The IAEA would like to acknowledge the invaluable contribution of the Department of Molecular Imaging and Therapy, Austin Health, Melbourne, Australia, in creating the foundational questionnaire upon which this survey is based. Their research and expertise have been instrumental in shaping the questions and methodology used in our Patient Journey Audit tool, Patient Satisfaction Survey, and Referrer Satisfaction Survey. This has allowed us to build upon their work to explore new insights and perspectives of experience of patients and other stakeholders. We extend our gratitude to the Department of Molecular Imaging and Therapy, Austin Health, for their pioneering efforts in this field.
